The College of Liberal Arts and Sciences at Iowa State University is a world-class learning and research community. Iowa State’s most academically diverse college, LAS educates students to become global citizens, providing rigorous academic programs in the sciences, humanities and social sciences within a supportive personalized learning environment.

Our college is home to more than 8,000 students among 21 departments, the Greenlee School of Journalism and Communication, and more than 20 additional programs. Our faculty members teach more than 50 percent of all student credit hours at Iowa State leading to nearly 50 baccalaureate degrees, in addition to Ph.D. and master’s degrees.

The liberal arts and sciences have been central to the mission of Iowa State University since the institution was founded in 1858. The College of Sciences and Humanities was established in 1959, and the name was changed to the College of Liberal Arts and Sciences in 1990 to acknowledge the college’s specializations and breadth.

The faculty of the College of Liberal Arts and Sciences are among the institution’s finest. We have award winning teachers, scholars with national reputations for their research and creative activity, and internationally known performers. And, of course, our students are among the very best in the country.

## LIBERAL ARTS AND SCIENCES Career Services

Thank you for your interest in and support of Liberal Arts and Sciences Career Services! This report serves to give you a snapshot of the breadth and impact of our office's services and provide statistics regarding our recent graduates.

The 2017-2018 data shows that close to 90% of our LAS undergraduate students had a positive career outcome within six months of graduation. 67.5% were employed and 20.3% pursued further education.

Overall, we had a strong year of engagement with students participating in career advising appointments, career fairs, workshop attendance, and several trips to visit Midwestern companies, providing students with an inside look at the world of work. Almost 1,200 career advising appointments were held by our staff, answering students' career-related questions and providing guidance on application documents, interviewing, salary negotiation and more. Along with many workshops our office hosted, we visited nearly 70 classes and student organizations to help students grow in their professional development.

CyHire continues to be a strong resource for employers looking for talent and students seeking both internship and full-time opportunities. Over 5,000 career opportunities were posted by employers for LAS majors in 2017-2018. Over 550 employers participated in the career fairs LAS co-hosts, along with our partners from career services in the College of Business and College of Human Sciences.

We continue to be a strong resource to our employer partners and contributor to the success of the College of Liberal Arts and Sciences' graduates. We look forward to expanding our services to both students and employers, in hopes that we can make even more of an impact on our students' future career success.

Please feel free to contact me directly with any questions.

Sincerely,

**Taren Crow**
